Conclusion

For education to be complete, it must include not only the training of the intellect but also the refinement of the heart and the discipline of the spirit. Through explicit and implicit college-based activities we provide conscious, relevant opportunities to enable our young learners to acquire knowledge, skills and the habits of mind and heart that will develop them into confident, creative individuals as well as active, informed citizens. This annual report is much more than a statement of the college activities and achievements in the last academic year. It reflects the college ethos, an expression of the conviction and faith with which we pursue our goals and the very spirit with which we at TCP work. We work as a team to maintain and enhance the glorious traditions of this great institution and to take TCP to new heights and march towards excellence in future. We are aware that excellence is never an accident. It is the result of high intention, sincere effort, intelligent direction, skillful execution and the vision to see obstacles as opportunities. Thank you.
