THIAGARJAR COLLEGE OF PRECEPTORS, MADURAI – 9

2018 – 2019

WORKSHOP ON "SMART TEACHER"

MAY 09, 2019

REPORT

Technology ushers in fundamental structural changes that can be integral to achieving significant improvements in teaching and learning. Used to support both teaching and learning, technology infuses classrooms with digital learning tools, such as computers and hand held devices; expands course offerings, experiences, and learning materials; supports learning 24 hours a day, 7 days a week; builds 21st century skills; increases student engagement and motivation; and accelerates learning. Technology also has the power to transform teaching by ushering in a new model of connected teaching. This model links teachers to their students and to professional content, resources, and systems to help them improve their own instruction and personalize learning. Online learning opportunities and the use of open educational resources and other technologies can increase educational productivity by accelerating the rate of learning; reducing costs associated with instructional materials or program delivery; and better utilizing teacher time.

Objectives of the Workshop

- ✓ to comprehend the importance of digital tools in present scenario.
- ✓ to provide hands on experience on handling Mobile apps in classroom teaching.
- ✓ to enable them to access digital tools for classroom transaction .
- ✓ to give hands on training to the teachers on Google tools and other web resources in education.
- ✓ to equip the teachers with the skills to use google tools and web resources in the classroom.

Recommendations of the Workshop

This workshop on "Smart Teachers" recommends the participants

- ✓ To implement the learnt web tools in their class rooms daily or continuously
- ✓ To promote teaching with technology rather than teaching technology.
- ✓ To understand in a better way how to integrate tech-enhanced activity into their own instructional practice
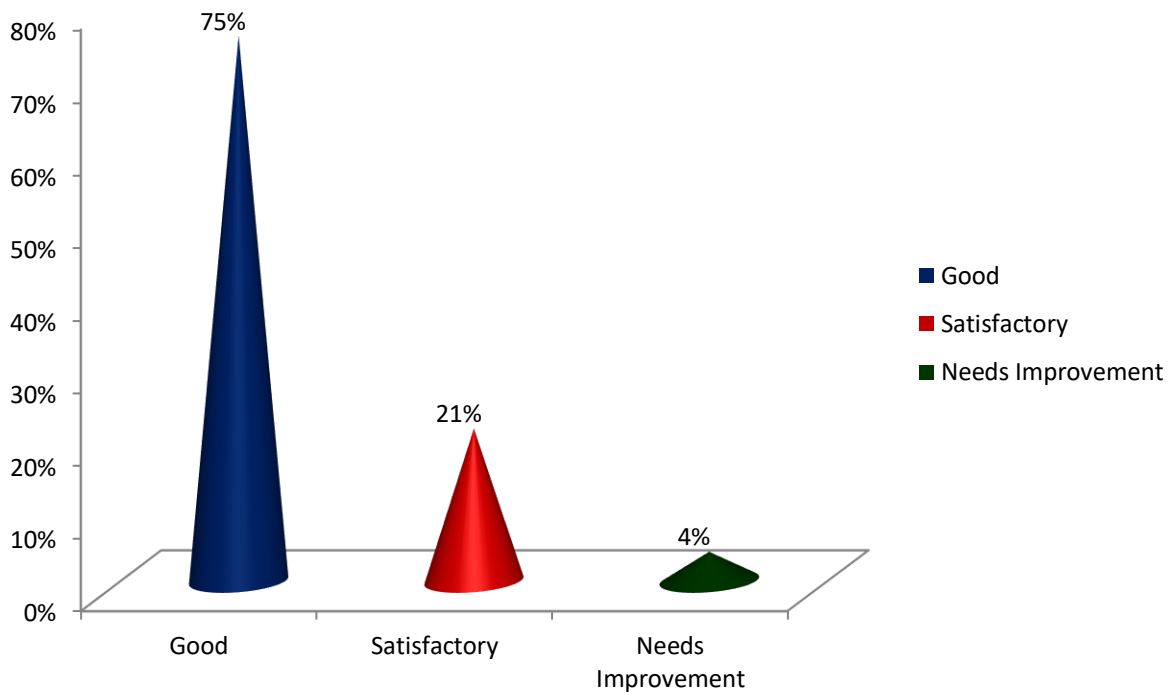

**Feedback through Google Forms on the Workshop**
